2. General [REDACTED] advised me that the IO Division wanted him to look into the management of Project [REDACTED] and that he had declined to do so unless it was cleared with me. I told him that this was the correct procedure for him to have taken, that I thought it was too big a job for the Audit Office to tackle, and that in any case it should not be taken on until it was first cleared with the Director.

3. Lunched with [REDACTED] to discuss the proposed merger of the Offices of the DD/A and the COA/DDP and settled a number of points. I reviewed with him our somewhat stormy meeting of yesterday afternoon concerning Logistics and he expressed his regret. Arranged to appear at his Staff Meeting at 11:15 a.m. tomorrow morning to lay to rest certain wild rumors which are circulating concerning this subject. Agreed that [REDACTED] would, at least for the time being, be retained on the DD/A Staff as the principal coordinator in the DD/P area. Also agreed that personnel on [REDACTED] staff would be frozen until the functional responsibilities could be sorted out. Dick suggested that it would be a good move to have some of our key people attend certain operational courses conducted by the Office of Training; I concurred and will follow up to see that this is done.
